DETAILED ACTION

Allowable Subject Matter

Claims 1-18 are allowed. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose in combination with other limitations of the claims, a cylindrical element having two obturation elements located within an internal volume of the cylindrical element and integral to an inner wall of the cylindrical element. The applicant points out that De la Torre does not teach or suggest this structure where there are two obturation elements located in the internal volume of the cylindrical element forming a passage in a first mode, and the two obturation elements configured to press against each other to block the passage in a second mode upon the cylindrical element being twisted, as recited in amended claim 1.

The cited references Mialhe (WO 02/19926 A1), Kavteladze et al. (6,063,113), Yencho et al. (US 6,461,320 B1), Callister et al (US 2002/0029051 A1), Bash et al (WO 02/32320 A2), Pinchuk et al (EP 0864300 A1) taken singly or in combination do not anticipate or make obvious applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
